

Follow these steps, we'll help make it easy for you.

1

Request a log in

Our setup team will create an order profile for you.

Go to this link: <https://streetsmartvaluations.com/request-login/> to enter your information. Once your form is submitted, your profile will be set up, and credentials issued to the email you submitted on your form within 2 hours, or the next business day if submitted close to the end of day.

2

Place your order

Tell us about the property, your borrower, and who the appraiser should call for access.

Log into the appraisal portal through the appraisal tab on your loan in CLOSR to place your order. A credit card will be required to enter your order, and it will be on file. **We will not run the card until we have confirmed the fee with the appraiser.**

3

Watch for updates

Your part is done, let us take it from here.

Once you submit your order, we will get to work matching it with a qualified, local appraiser. **Please note that your fee and due date is not yet confirmed at this time.** Once we have confirmed an appraiser, you will receive a confirmation email (this usually happens within 24 hours.)
